It is delightfully cool here!
The climate reminds me
of Colorado - warm in
the middle of the day
but cool nights & morn-
ings. I shall go to Miss
Thorp's tomorrow where
I shall stay for a month Bay-side
at least. I shan't have
the heat again for any
festival. It is a different
heat than we are used
to. Love, much of it,
W.C.K.

Thanks for your
Card from Cartage.

Kenneth has recovered from a week of bronchitis and returned to school. Everything else is normal. But the weather is unusually odd. Looks like a bad winter ahead.

Australian Pavilion - A huge sky roof suspends a 200-ton circular room over the Australian Pavilion entrance. The architectural inspiration of this structure was drawn from Hokusai's famous Japanese woodblock printer in 18th century. Underneath the dome are a theater with 2,000 seats and moving sidewalks.
